

REMARKS

Applicant requests favorable reconsideration and allowance of the subject application in view of the preceding amendments and the following remarks.

Claims 19-30 are presented for consideration. Claims 19 and 25 are independent. Claims 19 and 25 have been amended to clarify features of the subject invention. Support for these changes can be found in the original application, as filed. Therefore, no new matter has been added.

Applicant submits that claims 19-30 patentably define features of the information processing apparatus and the information processing method of the present invention. Notably, Applicant submits that none of the Kerszykowski et al., Ozaki or Prichard citations teaches or suggests the salient features of Applicant's present invention, as recited in independent claims 19 and 25 in which, for example, a generated parameter file is provided to an information processing apparatus arranged outside of an exposure system and an image is displayed using the described mark up language by the information processing apparatus.

Applicant further submits, therefore, that this application is in condition for allowance. Favorable consideration and an early passage to issue are requested.

Applicant's undersigned attorney may be reached in our Washington, D.C. office by telephone at (202) 530-1010 All correspondence should continue to be directed to our address given below.

Respectfully submitted,
